

HALDANE IS OUT

German Affiliations and Press Attacks Cause Retirement.

Elevation of Buckmaster Comes as Genuine Surprise.

CHURCHILL TO OBSCURE POST

Kitcheners Gets Help and Retains War Portfolio.

Ministry, Indorsed by King, Drawn From Many Parties.

London, May 26.—Lord Kitcheners retains the post of secretary for war in the new coalition cabinet which has received the approval of King George.

The new lord of the admiralty will be Arthur J. Balfour, former head of the admiralty, is given the portfolio of chancellor of the duchy of Lancaster.

Herbert Asquith retains the premiership and Sir Edward Grey the ministry of foreign affairs.

David Lloyd George, chancellor of the exchequer in the old cabinet, is ministers of munitions in the new one.

An official announcement on the new cabinet was made today.

"A place in the cabinet was offered to Mr. John Redmond (the Irish nationalist leader), but he did not see his way to accept it."

The prime minister has decided that a new department shall be created, to be called the ministry of munitions, charged with organizing the supply of munitions of war.

Lloyd George has undertaken the formation and temporary direction of this department and during his tenure of office as minister of munitions, will vacate the office of chancellor of the exchequer.

Labor Man in Cabinet.

It is understood that Mr. Henderson will assist the government in matters relating to labor questions, especially those arising out of the war.

The king has been pleased to confer upon Viscount Haldane of Clarendon (the retiring lord high chancellor) the Order of Merit.

The cabinet is composed of twelve Liberals, eight Conservatives, one Laborite, Arthur Henderson, and one non-partisan, Earl Kitcheners.

Thirteen members of the old cabinet remain in office. Of these, Mr. Asquith, Sir Edward Grey, Earl Kitcheners, Mr. Runciman, Mr. Birrell and Mr. Wood retain their old portfolios.

The promotion of Sir Stanley Buckmaster, whose greatest activities during the war have had to do with the management of the official press, to the high honor of lord high chancellor, and the acceptance by Winston Spencer Churchill, formerly head of the admiralty, of the merely nominal duties of the office of Lancaster are two distinct surprises.

The most prominent figure who retires from public life is Viscount Haldane. His resignation, however, and the continued newspaper attacks based on these, made his retirement as inevitable as Prince Henry of Battenberg's resignation from the admiralty for the same reason.

Order of Merit for Haldane.

Viscount Haldane received an expression of the government's confidence by the bestowal of the Order of Merit upon him.

The retention of Lord Kitcheners as head of the admiralty, with David Lloyd George, with the newly created portfolio of ministry of munitions, relieves him of the responsibility of managing the supply department, and also Mr. A. J. Balfour's acceptance of the admiralty were fully expected.

The Marquis of Lansdowne, whose health has been poor, becomes a member of the cabinet without duties except participation in its councils, and Mr. Churchill's position is virtually the same.

Mr. Lloyd George and Mr. Henderson will be especially charged with the task of rallying the working men to the government's support, and much is expected of the former chancellor in organizing the country's industries.

Sir Edward Carson represents the Ulster section of Ireland and there is regret that Mr. Redmond declined to enter the cabinet and make the representation embrace all political parties.

The cabinet undoubtedly includes the strongest men in public life, whether they will prove correspondingly strong as a working body is a question the answer to which the country will anxiously await.

Unionists Enlighten Party Men.

An important meeting of the Unionist members of both houses of parliament was held today at the Carlton club, in connection with the political crisis and the formation of the coalition ministry.

The purpose of the meeting was to acquaint the rank and file of the party with the details of the negotiations which resulted in the new cabinet, and to invite their support in future action.

BREWER RUPPERT DEAD

New York Millionaire Dies at 74 After Remarkable Career.

New York, May 26.—Jacob Ruppert, one of the most widely known brewers of this country, founder of the Jacob Ruppert Brewing company, died in his home here late last night. He was 74 years old.

As a boy of ten years Mr. Ruppert began his career as a brewer in the employ of his father, Franz Ruppert.

He was a member of the New York Yacht club, and was a member of the New York Athletic club, and was a member of the New York Country club.

He was a member of the New York Jockey club, and was a member of the New York Turf club.

He was a member of the New York Golf club, and was a member of the New York Tennis club.

He was a member of the New York Cricket club, and was a member of the New York Baseball club.

He was a member of the New York Football club, and was a member of the New York Hockey club.

He was a member of the New York Ice hockey club, and was a member of the New York Figure Skating club.

He was a member of the New York Figure Skating club, and was a member of the New York Ice Skating club.

He was a member of the New York Ice Skating club, and was a member of the New York Figure Skating club.

FISHING IS FISHING

Even if a Man Doesn't Get a Nibble.

Holding a Pole Is Considered Incriminating Evidence.

Metuchen, N. J., May 26.—When the weather is hot, summer, Aleck Buckowski failed in his attempt to get back to the old country to shoulder a musket against the Russians.

His head and hopes are still with Austria, however, and to forget his troubles he hid himself to Keesby Pond. He cut a stick, tied a string on the end of it and let it dangle in the water.

Game Warden Charles Steerwald, with all the majesty of Jersey law, swooped down on him and haled him before Justice of the Peace Pickering.

Who gave him his choice between 20 days in jail and a fine of \$20. Aleck said holding a pole was incriminating evidence, and Aleck had not procured a license.

Not once since he became attorney general has Brewster gone to Leavenworth, Atchison, Wyandotte, Cherokee, Crawford, Sedgewick or any of the supposed wet counties of the state for the purpose of investigating liquor troubles. Yet reports from a number of these counties have been to the effect that real results are being obtained.

"I don't want to embarrass the local officers by rushing into print," said Brewster. "I am making a genuine and honest effort to enforce the law. I want results by co-operation rather than by intimidation. Of course if I don't get results, I will be liable to act. But I don't want to be placed in the light of giving out interviews on the liquor situation to gain publicity or for political purposes."

The Ryndam, a vessel of 7,776 tons, built in Belfast in 1901. Her length is 550 feet, her beam 66 feet.

The Cuneo is a steamer of about 800 tons capacity. She carried a crew of twenty men and no passengers. Her length is 210 feet.

On Board, 277.

The number of passengers aboard the Ryndam, it was announced at the time of the rescue, was 277, of whom 20 were in the first cabin, 34 in the second cabin and 23 in the third. The crew numbered 200.

The Ryndam's wireless became fainter and fainter and it was difficult for the wireless stations to communicate with her. Two warships of the Atlantic fleet, having to the assistance of the disabled vessel, came up alongside the Ryndam about 7 o'clock and steamed along with the liner, which made very slow progress.

The arrival of the war vessels virtually insured the safety of those of the crew who had remained on board.

Big Cargo for Holland.

The Ryndam was said to be heavily laden with a general cargo of food-stuffs and merchandise for Holland. The progress of the Ryndam was a continual fight with the part of the crew to prevent hold No. 8 from filling. With hold No. 5 filled, the water gained slowly in No. 6, notwithstanding the efforts to check it, and officers of the Ryndam made preparations to abandon the liner in the event the situation grew worse.

Although the cause of the accident has not been stated, it was believed that a heavy fog which was brought up by a southeasterly wind late last night was responsible. Fortunately the sea was not heavy.

A wireless message from Captain Hevel of the Ryndam, made public by the Holland-America line at 9 o'clock read:

"One hundred and fifty miles from Ambrose. Hold No. 5 full of water; hold No. 6 water gaining. Engine room water we can master. Am proceeding to sea."

The Ryndam was said to be heavily laden with a general cargo of food-stuffs and merchandise for Holland. SOME NEW RULES

Attorney General Brewster Makes Changes in Methods Of Securing Enforcement of the Prohibitory Law.

REVIEWS ALL THE EVIDENCE

Taken at Inquisition Held by the County Attorneys.

Better Results Are Obtained in the Wet Counties.

Kansas law enforcement officers are experiencing the adoption of some new rules concerning the duties of county and city attorneys, sheriffs and police officers. In his own way, S. M. Brewster, attorney general, is bringing about an understanding of the new rules. They are the effect that in districts where law enforcement has been lax, the attorney general will personally keep an eye on conditions there and will direct the work of the prosecutors and watch results by sheriffs and police.

None of the details of his campaign for law enforcement is being pushed before the public by the attorney general. In fact he is disposed to say little or nothing as to his plans.

Mail order exchange also was for a time seriously restricted.

"Were it not for the parcel post, the deficit for the first half of the present fiscal year undoubtedly would have been larger. A steady increase of postal receipts is now reported and constitutes indisputable proof of returning prosperity."

Even if a Man Doesn't Get a Nibble.

Holding a Pole Is Considered Incriminating Evidence.
